SL-680 MEGA

1

This full spectrum LED grow light is designed for use in open rooms, over benches or grow tents. The quantum board style diode array is perfect by itself and ideal for shared lighting scenarios higher above the canopy.

This fixture is named "MEGA" for the power and versatility it provides to your canopy. The Secret Lighting SL - 680 MEGA emits a full spectrum, bright white light with added 660nm red diodes. It can be dimmed between 0% to 100% via the onboard dial.

3

4

The Secret Lighting Control (NOT INCLUDED) can be added to one or more Secret Lighting fixtures for even more precise external dimming control.

SPECIFICATION SECRET SL-680 MEGA

Operating Voltage	100-277 VAC
Operating Freq	50/60 Hz
Input Current	5.66A @ 120V, 2.83A @ 240V, 2.45A @ 277V
PPF (umol/s)	2040
Energy Use	680 Watts (±5%)
PPF/Watt (umol/J)	3.0
Operating Temp	-4°F to 95°F (-20°C to 35°C)
BTU Output	2320
Dimensions (in)	36.0 x 35.43 x 1.97
Dimensions (mm)	914.4 x 899.92 x 50.0
Net Weight	17.0 lbs (7.71 kg)
Warranty	5 Year Limited
Life Rating	Q90 > 50,000 Hours
Certifications	ETL, CE, DLC Hort
Environment	IP65, Wet Rated

Package Contents

- 1 Fixture x1
- 2 Fixture Hooks x2
- 3 SECRET Power Cord (10') x1
(see available Power Cord Voltage Options)
- 4 SECRET Control Cable (10') x1

Power Cord Voltage Options

120V
(NEMA 5-15P)

240V
(NEMA 6-15P)

277V
(OPEN-END/WHIP)
